PATIENT CARE TECHNICIAN

Our Patient Care Technician program is designed for anyone that has an interest in getting into the clinical aspect of the medical field - no prior education or experience in the field is necessary. This program helps prepare students to take exams for Certified Nursing Assistant (CNA) and Certified Patient Care Technician (CPCT).

Students may also seek certification in Phlebotomy, EKG, and Positive Behavior Support Training. We have small class sizes that offer hands-on experience and customized books for every course. Fundamental courses, such as CPR, first aid, OSHA, HIPAA, Infection Control and others. We will enable the student to gain basic knowledge needed to secure an entry level position.

Start your career as a Patient Care Technician today! Contact us now for more information about this exciting career field.

CAREER FEATURES & BENEFITS

(once credential is earned)

- Opportunity to work in a variety of healthcare settings.
- Cross-functionality; the ability to handle the EKG machine, lab task, and patient care.
- Work in a challenging, changing, and rewarding position.
- Versatility; day-to-day responsibilities can vary depending on place of employment, which creates more autonomy and job responsibility.
- Great stepping stone to get their foot in the door and work their way up.

Florida Vocational Institute is committed to providing you a quality education in a lifelong, rewarding career.
